

WE ARE READY COVID-19

COVID-19 has had a profound effect on all our lives and we are coming to terms with a new way of life that has changed in many ways.

Although the world will emerge a different place there are still pleasures to be had such as an African safari experience at RockFig Safari Lodge.

The world's wild spaces are rejuvenating and will soon reopen to welcome travellers. A more conscious traveller may emerge in us, with renewed inspiration to conserve the Earth and take care of one another.

We have engaged with our sanitising company and medical experts and have developed policies and procedures, in line with the World Health Organisation, to ensure the safety of our staff and guests, while being sensitive to the environment.

Our emphasis has always been on personal and private safaris and our health and safety measures offer peace of mind and allow guests to fully immerse in a care-free safari.

Stay safe and we look forward to welcoming you soon.

We have put measures in place for your safety and comfort

Safari

RockFig's policy of **four** guests per vehicle remains our unique offering. However larger groups may request to share a vehicle. All vehicles will be sanitised before each game drive.

Lodge Hygiene

Rigorous housekeeping and strict protocols will ensure that all suites and guest areas will be sanitised daily, with high-touch areas receiving continuous attention.

Dining

Meals will be served to privately spaced tables, at least 2 meters apart and all dishes will be plated individually or served on platters. Our signature daily bush breakfast will be carefully co-ordinated to allow guests their privacy. Strict hygiene protocols will be observed in preparation and serving of all meals, snacks and drinks.

Hand Sanitiser

Alcohol based hand sanitisers will be placed within easy access, including the private suites, main guest areas and on the game drive vehicles.

Screening

We plan to reintroduce our staff in phases after mandatory testing. Daily temperature screenings will be carried out for all guests and staff using non-intrusive equipment.

Social Contact

All RockFig employees will be respectful of social distancing while still providing the RockFig high level of personal service and attention. With six generously spaced suites, guests will have the peace of mind of limited social contact. RockFig caters to a maximum capacity of 12 adults and four children.

Medical Guidance

We work closely with Africa Safe-T, headed up by Dr Duan Lemmer. Africa Safe-T assist with all on-site medical care, emergencies and evacuations. They provide advice, training and guests medical care.

Stay in touch

Please contact us with any questions or concerns. As we are in uncharted territory, we will adapt our procedures as and when required.
